Release Overview

The Telescope Standard and Executive 2020.7 release contains enhancements which address issues as reported by customers following the last release of the product, version 2020.6, published in October, 2020.

RELEASE VERSION	Telescope Standard and Executive 2020.7
RELEASE DATE	December 2020
RELEASE TYPE	Generally Available
DELIVERABLES	Product Release Software and Release Documentation

Release Strategy

As we build a great new foundation for Northplains, every release will focus on theme-based features and enhancements prioritized within the roadmap. The Northplains product management team bundles tasks into releases thematically so that it's clear how each release will impact your use of Telescope.

Available now, Telescope Standard and Executive 2020.7 release focuses on Creative Assets.

Highlights include:

- NEW Telescope Studio: manage creative workflows and work in progress (WIP) assets directly within the DAM
- General quality and performance enhancements

Have a great idea? We'd love to hear it! We believe the best product ideas come directly from our users. [Click here](#) to submit your feature request directly to our product team!

What's New in this Release

Telescope Studio **EXECUTIVE**

Telescope Studio enables an integrated creative workflow using your stored assets in Telescope.

Use hosted FPO assets directly within your InDesign projects for easy layout generation, then swap in full-res assets with a click of a button, all without actually ever downloading anything to your desktop.

Maintain a single source of truth for layout elements, since linked assets will update dynamically to the latest version when the project is accessed again.

Know that your assets are secure, since links are managed by Telescope access rules, so only appropriate users can download and refresh linked assets.

Summary of Fixed Issues

Fixes for the following reported issues have been included in this release.

ISSUE ID	SUMMARY
PLNP-30831	Telescope Studio
NORTHHP-15894	Improved thumbnails for ZIP files
NORTHHP-24937	Improvement in the page label on the Details tab in the File Migration Policy screen

Installation Instructions
